

Care and cleaning — all finishes

Daily cleaning, what to avoid, and how to treat the three marks that come up most often.

Daily

Cleaner	Neutral pH detergent, warm water
Never	Hydrofluoric acid, abrasive cream, wax, sealer

The three marks that come up most often

Limescale	Dilute citric acid, rinse thoroughly
Metal marks	From a pan base. Mildly abrasive cream on matt only
Water spots	Polished finishes. Dry after cleaning
