

Linea Costa slab outlines

Nominal slab outlines and cutting allowances for setting out.

Nominal slab

Slab size	2800 × 1200 mm
Thickness	12 mm
Squared size after trim	deduct 20 mm on each edge
Minimum internal radius	5 mm
Cut-out corner relief	drill 6 mm before cutting

Setting out

Start from a fixed edge, not from the centre of the run. On veined and ribbed finishes the direction is set by the long dimension of the slab.
