

# Terra Cenere T02

Grey cement without the maintenance schedule of actual cement.

## Product

|            |                |
|------------|----------------|
| Reference  | T02            |
| Collection | Terra          |
| Surface    | Matt           |
| Thickness  | 12 / 20 mm     |
| Slab size  | 3200 × 1600 mm |

## Technical data

|                   |                              |
|-------------------|------------------------------|
| Water absorption  | < 0.1 %                      |
| Mohs hardness     | 6                            |
| Flexural strength | 52 MPa                       |
| Thermal shock     | Pass — sample test reference |
| Food contact      | Compliant — sample statement |

## Test references

Values are typical for the body and are given as sample data with this template. Confirm the applicable standards and test reports for your own project before you rely on them.

Ardesa Surfaces - Cami Vell 118, 12540 Vila-real, Castellon, Spain
